- BP 511, Phum Tropeang Chhuk Sangtak, Street 371, Phnom Penh

EDUCATION

- Bachelor Degree [2026-2027]
AGA Institute
- Associate Degree [2024-2026]
Passerelles Numériques Cambodia
- Graduated BacII [2023]
TRIEL HIGH SCHOOL

TECHNICAL SKILLS

Frontend:

- JAVASCRIPT
- Vue JS
- Flutter (Basic)
- BOOTSTRAP
- TAILWINDCSS
- HTML
- CSS
- SASS

Backend :

- Laravel
- PHP (Basic)
- NODE JS (REST API)
- SQL Server
- MySQL
- Database
- Python
- OOP (TYPESCRIPT)

SOFT SKILLS

- Teamwork
- Critical thinking
- Problem solving
- Communication
- Task management
- Agile & SDLC development

LANGUAGES

- Khmer (Mother Tongue)
- English (Intermediate)

PERSONALITIES

- Full Name: CHHEUN Seangmeng
- Date of Birth: 19 June 2006
- Place of birth: Kampong Thom
- Gender: Male
- Nationality: Khmer
- Marital Status: Single

PROFESSIONAL SUMMARY

Web developer experienced in building full-stack applications using Python, Vue3, and MySQL. I have worked on web systems and Telegram bot mini apps with MVC architecture, focusing on performance, scalability, and clean code. I am passionate about delivering practical and user centered solutions.

WORK EXPERIENCES

Web Developer (Ezze System Cambodia)

Feb 2026 – Present

- Built a Telegram Mini App with webview and user authentication
- Developed a Telegram bot to handle commands and real-time interactions
- Integrated backend APIs for data sync and push notifications
- Managed user sessions and secure data storage
- Deployed bot and mini app on cloud

Data Engineer Intern (Dai-ichi Life Cambodia)

Sep – Dec 2025

- Built SQL queries and reports for business analysis
- Created procedure and maintained views for reporting
- Optimized SQL queries to improve report performance
- Supported database related requests from team members
- Worked with relational database structures (tables, keys, relationships)

PROJECT EXPERIENCES

Digital Menu App (Academic Project)

Jul – Aug 2025

- Built a QR Code Menu as Mobile application allowing customers to view menus and place orders using Laravel, Flutter, and MySQL.
- Connected the application to a database for menu and order management.
- Designed a simple ordering flow integrated with staff/POS systems.

POS System (Academic Project)

Feb – May 2025

- Developed a POS system using JavaScript, PHP, and MySQL to manage products, sales, and inventory.
- Implemented CRUD operations (add, edit, delete products).
- Designed database structure for accurate stock tracking.

Expense Tracker app (Academic Project)

26 Jan 2025

- Managed user income and expense data using browser localStorage
- Ensured data accuracy and separation per user
- Implemented real time updates for totals and balances

Voice Control Music Player (Academic Project)

20 Nov 2024

- Built a Python Tkinter music player with voice controlled play/pause and playlist.
- Used speech recognition and algorithms to handle commands

TOOLS

- SSRS
- SSMS
- MySQL
- Power BI
- Github
- VS code
- Postman
- Linux (Ubuntu)
- Jira
- AWS (EC2)
- AI tools
- Figma
- Netlify / Vercel
- MS Offices (Word, Excel, Power point)

HOBBIES

- Researching tech field
- Digital designing (Figma)
- Listening to tech podcasts
- Learning new tech tools and techniques
- Participating in youth and leadership events

ADDITIONAL EXPERIENCES

- Mentored junior students in developing a trip booking web application using Laravel, React, and MySQL, supporting CRUD implementation, AWS (Ubuntu) deployment, and teamwork coordination (2026)
- Camera Trainer course with Live & Learn Cambodia (2025)
- Joined Transparency International of Cambodia event (2023)
- Exchanged program between Cambodia & Singapore (2023)
- Joined Annual Youth Leadership Event (AYLE) – 2023
- Volunteered as Cameraman of school event (iOSS – 2022)

TECHNICAL WORKSHOPS

- Joined Project Management Workshop
- Joined Data Analytics Workshop
- Joined Product Owner Workshop
- Joined ASEAN Data Analyst Competition
